

Data Engineer, Data Engineering Team

Vision Government Solutions is a leading high-tech Government Technology firm providing software to more than 400 communities across the United States. Our organization is at an incredible inflection point of growth, and we have an exciting opportunity for a Data Engineer to join our Data Engineering team.

Vision's Data Engineering team is responsible for the data migration of customer data into Vision's T-SQL database structure. The Data Engineer oversees ETL processes for new customer implementations and existing Oracle PL/SQL environments, in addition to ad hoc database updates and data maintenance. The combination of these three operations plays a critical role in Vision's continued rapid growth.

Responsibilities:

- Lead database conversions during new customer implementations. Convert data from legacy or competitor systems into Vision's T-SQL Server database format
- Partner with Project Management team to provide a seamless transition to Vision CAMA for new customers
- Run database conversions during existing customer upgrades, converting from Oracle PL/SQL to T-SQL
- Build and execute T-SQL scripts against client databases to fulfill ad hoc requests or billable work
- Develop new scripts and processes to streamline future conversions, with a focus on building new process as the Data Engineering team expands its responsibilities along with company growth

The ideal candidate will have the following skills/experience:

- Minimum 3 years' experience working in a SQL-data conversion role
- Very strong knowledge of T-SQL and SQL Server Management Studio
- Experience with ETL and Data Migration
- A detailed understanding of, and experience working with, relational databases
- Effective oral, written communication skills and strong analytical problem-solving capabilities
- B.A./B.S. preferably in Computer Science or a related field

Knowledge/experience of the following preferred:

- SQL Server Management Studio

- Microsoft Visual Studio
- Oracle PL/SQ
- SQL Server Reporting Services
- JIRA

Company Benefits:

- 401(k) plan with employer match
- Dental insurance
- Health insurance
- Paid time off
- Vision insurance

Covid-19 Remote Work Expectations:

Due to Covid-19, Vision expects to be fully remote through at least July 2021 and potentially longer. After Covid-19, this will not be a fully remote role. Please do not apply if you cannot commute to Vision headquarters in Hudson, MA.

Vision Government Solutions, Inc. is an Equal Opportunity Employer.
