

Title: Director of Engineering, SAAS

Vision Government Solutions is a leading Government technology firm providing cutting-edge CAMA and Tax software along with Appraisal Services to more than 400 communities nation-wide, including New York City, Washington, D.C., Hennepin County, Pasco County, Henrico County, City of Providence, RI, and many others.

Vision is searching for star Engineering Leaders to join our rapidly growing team. We are seeking ambitious team members who yearn to push the boundaries of what's possible in exciting, yet pragmatic ways. Our organization is at an incredible inflection point of growth, and we are looking for people with ambition and drive to join our Product Development team.

Role Description

Vision Government Solutions, a leading national provider of Mass Real Estate Appraisal and Municipal Tax billing and Collection software, is looking for a Director of Engineering to oversee the development of our SaaS platform.

As a Director of Engineering, you'll oversee the development of Vision's SaaS products. Collaborating with product management, customers, and technical leads, you'll help to determine timelines and deliverables along with ensuring the quality and maintainability of the products. You'll also work with customers and customer support to triage customer issues, determine priorities, and coordinate solutions.

Who We Are Looking For

- 5-7 years of modern software development experience in a leadership position (as well as some time as an individual contributor).
- Excellent written and verbal communication skills are a must for this role.
- Ability to lead and manage a team of individual contributors and to assess feasibility and costing for development projects
- Technical experience in designing & building commercial SaaS products using CI/CD in private and public cloud environments
- Collaborative and capable of working well across functions
- A degree in Computer Science or similar discipline (or equivalent work experience)
- Relentless desire to win and increase the speed at which our customers are able to serve taxpayers

Remote Work and Travel Expectations: This role will require minimal (if any) travel. Due to COVID-19, the staff at VGSI is currently working entirely remotely. We expect the office to reopen in the Fall, however, office hours will remain flexible (at the discretion of your manager).

Total Compensation Package: To be discussed.

Benefits Package: Vision offers health, dental, and vision plans, as well as a 401(k) matching program. We also provide reimbursements for remote work set-up, professional memberships, and IAAO-accredited continuing education.
